McCULLOCH'S GROWING LIKE WEEDS.

Barely two years ago, a bunch of McCulloch gas-powered string trimmers popped up all over the country. Now our name's spread to electric string trimmers — three new models that complete our line. They have the most popular features including Automatic Feed, Trigger Switch Guard and Automatic Line Cut-off. And as you'd expect, they're built with the same McCulloch quality

and reliability customers trust. Every one is backed by the same 3,000 McCulloch authorized Service Centers that handle our chain saws.

Plus Black and Decker Factory Service Centers.

And this spring, you can be sure your customers will be asking for McCulloch. Because we're offering a free Jack Rabbit Pump with any gas-powered

string trimmer purchased between April 15 and June 30. All your customer has to do is complete and send in our coupon from the May '93 issue of Reader's Digest plus proof of purchase (the model number, from any gas powered unit, cut from the box) and the original cash register receipt.

Stock up with McCulloch. And see how easy we are to get rid of.
